In 2004, the Family Violence & Sexual Assault Institute (FVASI) first joined with the Kapi'olani Child Protection Center to initiate a Summit that would specifically address issues of trauma in Hawai'i. Since the 2004 collaboration, the *Hawai'i International Summit on Preventing, Assessing, and Treating Trauma Across the Lifespan* has grown tremendously, surpassing the expectations of the original Summit visionaries and planners, Drs. Robert Geffner, and Steven Choy. In 2006, the Institute on Violence, Abuse and Trauma (IVAT) became a co-host and the main organizer of this unique Summit, and more collaborating organizations and agencies became actively involved each year.

The 20<sup>th</sup> Anniversary celebration of IVAT's presence in Hawai'i added historical significance to this year's Summit. This year's Summit achieved an unprecedented milestone, with a record-

breaking attendance of **1,500 attendees** from various corners of the world. The report below provides several highlights from the 2023 Summit.

We thank all the planning committee members, collaborating organizations, volunteers, and staff for the many hours and contributions that they provided to create such a successful event. In particular, we would like to thank our sponsors: State of Hawaii Department of Human Services and Department of Health; Univeristy of Hawaii at Mānoa, Thompson School of Social Work & Public Helath; The Steven A. Cohen Military Family Clinic at Child & Family Service; Child & Family Service; Kaiser Permanente; Hawaii Medical Assurance Association (HMAA); Chaminade University of Honolulu; Catholic Charities Hawaii; Department of Health Executive Office on Aging; Consuelo Foundation; Sutter Health Kāhi Mōhala; Family Programs Hawaii; HMSA; AMVETS; Hawai'i Health & Harm Reduction Center; PACT (Parents and Children Together); and Lili'uokalani Trust. Special thanks to our many exhibitors. This year, the number of exhibitor participants doubled compared to last year from 15 to 31. Special thanks to: P.A.R.E.N.T.S. Inc., Best Printing, Barbara Kohara, and our other partners for providing needed support for the Summit.

Much of the success of this event can also be credited to the **54** dedicated and gracious volunteers, the **70** Planning Committee Members and the **37** Ho'omaluhia Advisory Council Members. Their tireless efforts in providing set-up, registration, continuing education help, printing, as well as logistical and session monitoring support, were deeply appreciated by presenters and attendees alike.

The Summit evaluations were high, with an overall rating of **4.61** on a **5**-point scale. The evaluations also showed that respondents indicated a score of **4.35** regarding the question: Did the Summit content extend your overall knowledge? Over **86.2 %** reported that their learning objectives were met and **79.1 %** indicated that the Summit challenged their thinking and that they learned new techniques and applications as a result of having attended the Summit. None of the overall ratings on several dimensions were below **4.13**.

The uniqueness of this Summit has always been the meaningful integration and networking of international presenters, as well as those from the mainland, and local experts from the islands. This combination enabled a lively sharing of intervention techniques, evidence-based and promising practices, current research, and innovative prevention programs.

The success of a Summit can be reflected in the attendance and distance traveled by the attendees. This year, we are pleased to announce that over **1533** individuals attended and participated during the 4 days. There were over **823** participants from Oahu and from neighboring Hawaiian Islands, while at least **499** people came from the mainland. In addition, **121** people attended from **14** other countries or U.S. territories, including: American Samoa, Australia, Canada, Guam, Iceland, Italy, Japan, New Zealand, the Northern Mariana Islands, Singapore, Sweden, Taiwan, Tanzania, and the United Kingdom.

**Media Recap:**

Our efforts secured substantial media attention, resulting in six television interviews that showcased IVAT's significant influence in the community for the first time in IVAT's history. Through collaborative initiatives with government and local entities and our valued community partners, we continue to effectively address the pressing issues of violence and trauma that plague our society today. Distinguished experts such as Dr. Robert Geffner, Dr. Joyce Feng, Child Welfare League Foundation, Taiwan, Dr. Pamela Pine representing Stop the Silence® - a Department of IVAT, and Cathy Betts, Director of The Department of Human Services, Hawai'i, were among the esteemed individuals interviewed by the top local media outlets. This

momentous occasion stands as a testament to the success and remarkable achievements of the 20<sup>th</sup> Hawai'i Summit. We are profoundly grateful for the ongoing support from this beautiful and spirited community. IVAT's remarkable success would not be possible without the community's commitment and generous contributions.

### **Future Steps:**

The Summit Planning Committee has begun to recruit more members, laying the groundwork for our 21<sup>st</sup> Hawai'i International Summit to be held on April 7-11, 2024, again at the Hawai'i Convention Center. We are continually looking for feedback, additional sponsors, exhibitors, and volunteers to help in planning and improving our Summit. We appreciate the feedback, contributions, and the efforts of all those who helped in this major endeavor. We strive to continue to increase connections helping national, state, and local agencies work together to end violence and abuse and reduce trauma in our families and communities.
