IVAT SPECIALTY CERTIFICATIONS

Summit sessions meet many of the training requirements for IVAT Specialty Certification Programs. Specialty certification assures the consumer that specialists have successfully completed the educational, training, and experience requirements of the specialty area, and that their expertise has been objectively reviewed and documented.

Specialty Certification in Domestic Violence Offender Treatment Includes training and experience in working with both male and female intimate partner violence offenders to understand the dynamics and safety issues involved in intimate partner violence and typologies of domestic violence offenders.

Specialty Certification in Child Custody Evaluations Includes an understanding of the issues of child development, parenting abilities and issues, best interests of children, and assessment techniques in general and specifically regarding child custody cases. The dynamics of legal, forensic, and mental health issues are included.

Specialty Certification in Trauma Care Includes an understanding of the various forms of trauma, short and long-term effects of trauma, and assessing and treating adults and/or children who have experienced both simple and complex trauma. The dynamics of post-traumatic stress disorder are included.

Child and Adult Maltreatment (CAM) (Formerly known as CAST/CAAST) Focuses on experiential, interdisciplinary, ethical, and culturally sensitive content that provides professionals with a common knowledge base for responding to child and adult maltreatment. This certification focuses on the development and understanding of the numerous factors that lead to child and adult maltreatment and the existing responses to child and adult maltreatment.

***NEW* Post-Graduate Certification in Child Trauma and Protection** Stop the Silence® - A Department of IVAT, in partnership with The University of Applied Research and Development (UARD), accredited in the United Kingdom (UK), now offers a Post Graduate Certificate in Child Protection as a stand-alone program, or the credits can be used toward achieving a Master's in the field. CEs are also offered. The Program is a unique opportunity to get important, fundamental information at one's own pace provided by experts in the field of adverse childhood experiences (ACEs), for a fraction of the cost of other programs, and in as little as three months for the certificate and 12-24 months for the Master's. The focus includes prevention, treatment, mitigation, and policy considerations regarding child sexual abuse, physical abuse, psychological abuse, and other traumatic events. To express interest, click here: <https://lp.constantcontactpages.com/su/3XAKPxx>

***NEW* Partner Certification: Litigation and Evaluation of Abuse Allegations in Family Court Specialty Certification** Introducing innovative specialized training for family lawyers and mental health professionals on increasing expertise and skills in the intersection of child abuse and domestic violence in child custody cases. This grant subsidized training will provide professionals with the necessary tools to ensure family safety, reduce risk, and prevent further traumatization. Learn how to analyze and respond to cases involving child abuse, domestic violence and their intersection. Improve your understanding of challenges that arise in these cases and gain experience to develop effective legal strategies, expert testimony, and custody evaluations. This is an advanced training that requires some previous training and experience in the areas of domestic violence, child maltreatment and family law. Registrants must attest to 6 hours of education on domestic violence and/or child maltreatment in the last five years. *Sponsored by the Professional Consortium on Abuse Allegations in Family Court: the Institute on Violence, Abuse and Trauma, Battered Women's Justice Project, Leadership Council on Child Abuse and Interpersonal Violence, and the National Family Violence Law Center.*

Partner Certification: MEGA Specialized Risk Assessment Certificate MEGA is a tool for assessing risk for coarse sexual improprieties, and/or sexually abusive behaviors in youth ages 4-19 years. MEGA is applicable for adjudicated and non-adjudicated males and females, including youth with low intellectual functioning. Tested on over 2200 youth internationally (largest validation studies in its field) – MEGA is state of the art and unique. It provides a comprehensive individualized risk assessment report according to age and gender. MEGA can follow changes in the youth's risk level over time (is an outcome measure). The one-day specialized training includes dynamics of risk assessment in general, administering, scoring (data is confidential and secured), and interpreting the MEGA findings.
